# New Software Update Status Report

January 2025

# Project Goals

## AUDIT THE CURRENT SOFTWARE PROGRAM

Diagnose issues in accessing and using the software

---

## IMPLEMENT NEW SOFTWARE SYSTEM

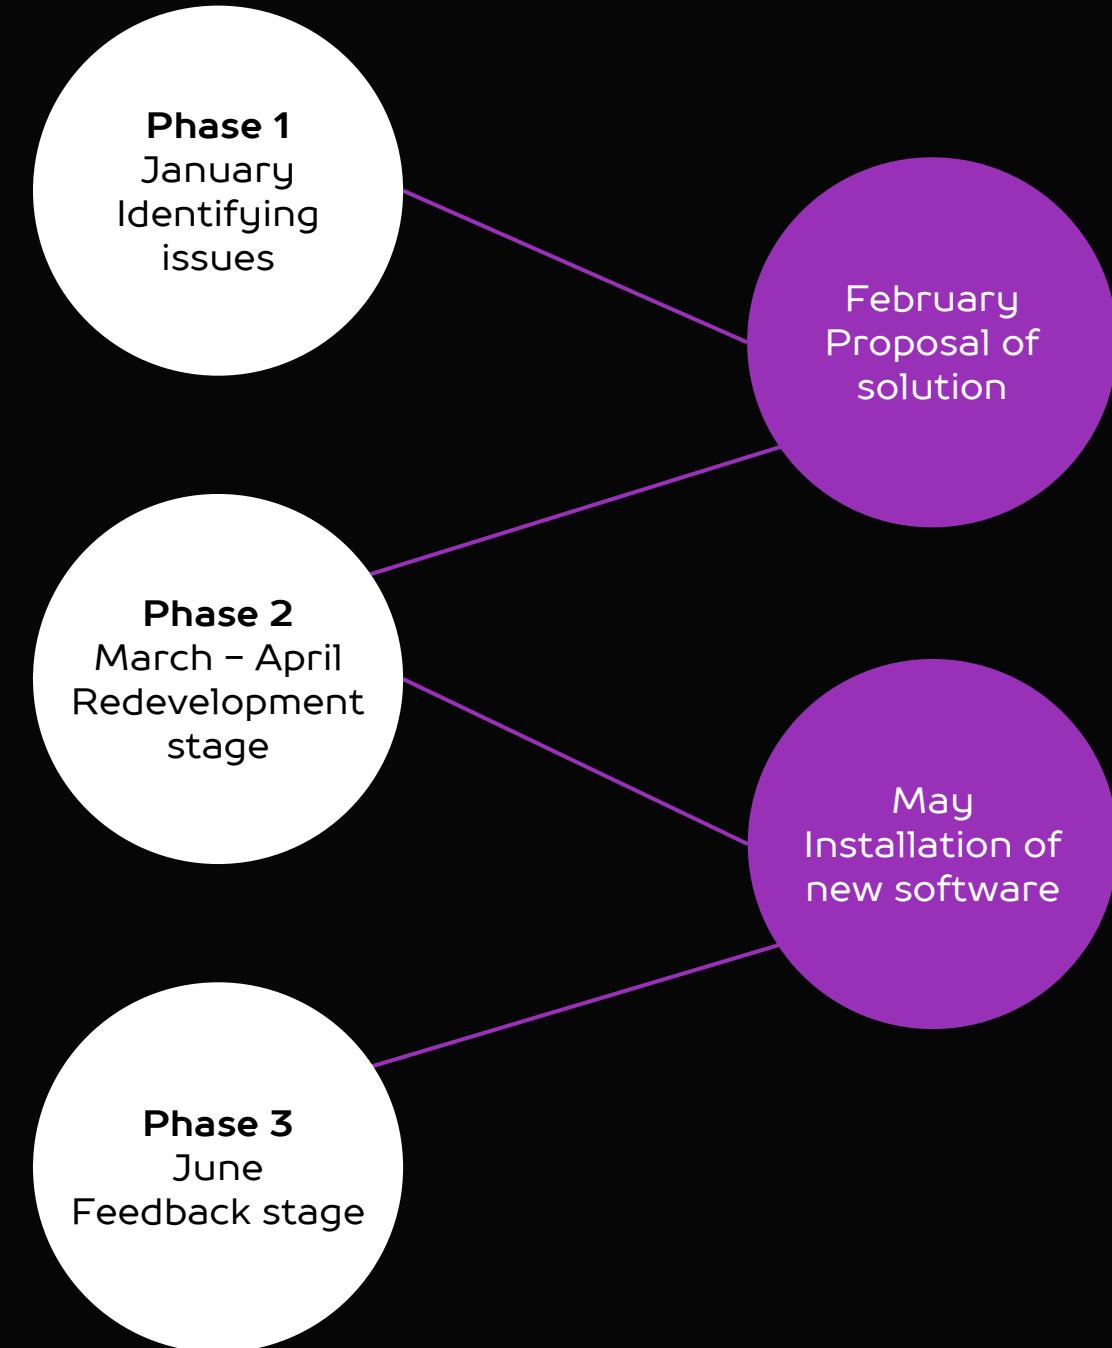

Redesign the software to keep it up-to-date

---

## TEST NEW SOFTWARE

Install and run a test on the redeveloped software

# Project Timeline

# Phase 1 Updates

- The software system audit has been completed
- Top issues with the current software were identified
- Possible solutions were proposed

# Phase 2 Updates

- Development teams are working on possible solutions
- An assessment guide is being prepared
- Meetings with different department heads are being scheduled

# Next Steps

## AUDIT PRESENTATION BY DEVELOPMENT TEAM

Olivia Wilson

- Will prepare the presentation and schedule the meeting
- Will stay in touch with the team for updates

## FIRST BATCH OF SOFTWARE TESTING

Chad Gibbons

- Will deploy the software for testing
- Will determine and contact users

## DATA REPORT ON THE SOFTWARE TESTING

Daniel Gallego

- Will collate the feedback and findings
- Will prepare and present the collected data
